Weaners worked well through yards for limited experience. Weaners went through draft twice at assessment with the odd one stirring up but settled once it was back with the mob. Heifers will be tailed out during the day and fed in yards at night until delivery. Heifers can be a bit trotty in bigger yards need settling

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles
Assessor Comments	A 4 deck line of VGQ PCAS eligible Santa & Santa/Droughtmaster X weaner heifers that present in store to forward store condition and are best described as being large frame relative to age. This is an opportunity to buy the entire run of weaner heifers from vendor with no replacements being kept, these are the top of the drop. Heifers will be ideal future breeders presenting with plenty of bone, length & depth or will continue to grow out to heavy feeders or kill weights given the opportunity to green pasture. These cattle will not disappoint with a good performance record and all the right genetics. At assessment 1 x heifer was noticed to be double muscled & 4 x head with old ring worm scars. **Vendor also has 120 Steers in same sale**
