Weaners worked well through yards for limited experience. Weaners went through draft twice at assessment with the odd one stirring up but settled once it was back with the mob. Heifers will be tailed out during the day and fed in yards at night until delivery. Steers can be a bit trotty in bigger yards and need settling

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot , Vehicles

Assessor Comments A 4 deck line of VGQ PCAS eligible Santa & Santa/Droughtmaster X weaner steers that present in store to forward store condition and are best described as being large frame relative to age. An opportunity to buy a great run of soft easy doing steers showing plenty of length, bone and frame that will continue to grow into good heavy export feeders or grass-fed jap ox. These cattle will not disappoint with a good performance record and all the right genetics. At assessment 2 x steers noticed to be double muscled, 3 x steers with old ring worm scars & 2 x steers with old rub marks on neck. **Vendor also has 135 heifers in same sale**
