	Heifers were drafted in a pound set up before being assessed and majority handled well, a handful of heifers became quite anxious in the drafting but settled quickly when released with the mob.					
Handled With	Bikes , Dogs					
Assessor Comments	A nice line of Brangus & Droughtmaster cross heifers for your competition, heifers have again like their brothers offered last week been the casualty of the past wet and cold winter and are really starting to do well with dryer conditions and a nice paddock of fresh feed. The heifers have bounced away since last inspection a month ago and would expect them to keep doing well for the successful purchaser once settled in to their new home. A very versatile mob of heifers that would be an ideal article to hit heavier markets on crop or put them back onto the grass country along side the bull of your choice to hit PTIC / Cow and Calf markets or retain as breeders, the choice is yours. Please note vendor has another line of Charolais cross heifers in the same sale.
