Assessor Comments	A very good quality line of yearling Angus steers that weighed from 307-396kg, to average 369kg at assessment, after a 16 hour curfew. These steers are out of large framed Dunoon, and Boorugal blood cows. They have been running on Pasture and Oat crops until recently, where they have had an introduction to cereal grain based feed. Steers are exhibiting bone, frame, and capacity, and would be ideally suited to going on to a full feed ration or back into the paddock to fatten. Buyers please note- Vendor has a heavier line of the same steers in this sale.
