Assessor Comments	Joinable weight Angus heifers, all one mark and only once removed from the vendor, all lifetime traceable. Ideal weight and condition to suit a joining straight away or would take to feed very well. The vendor has no bulls on his farm so buy with confidence they are NSM . Very even and true to angus type, all weighed 300kgs or better. The heifers are really on the do now and are cleaning up in the coat and have a real shine to them, averaging close to 1kgs at day presently. They are a large to medium frame and should continue to grow out well. 3 heifers have small amount of scarring in one eye. Dont over look these as future breeders as they have the genetics to back up any breeding program.
