| Vendor Comments | Rain delayed the muster so only ended up with 5 decks however another deck of similar weaners may be available by the time we truck these. |
| Joining Details | Not Station Mated |
| Any Access To Bulls or Stags? | Yes, last access to bulls/stags: 05/10/2022 |
| Joining Access Details | Prior to weaning heifers have been running in the herd with bulls and mickies however due to age of heifers it would be highly unlikely that they would be in-calf |

| Stirry: 8 head | Stirry: 10 head | Stirry: 8 head |

As to be expected, the weaners that had just been taken off, ran around in yards abit, however the longer weaned ones were generally good to handle through the yards. A handful stirred up in the crush but settled quickly once let out. They have been round yard drafted.

| Assessor Comments | 230 Vendor Bred Crossbred Weaner heifers. Bred in Mt Isa Uplands Country, these heifers will power ahead on better quality feed. These 5 decks of heifers would be suitable to either join to bulls of your choice or feed for the domestic supermarket trade. I had a scale malfunction and was not able to weigh any of the heifers. The previous afternoon I had weighed their brothers so I am confident in estimating their weight. I estimate heifers range from 120-250 kg and average 175kg. Buyers please note it is the weight at Cloncurry registered scales that payment of c/kg live will be calculated on. There is 59 heifers that have just been fresh branded but they have not been de-horned or earmarked. The 171 remaining heifers have all been well dehorned. They have good feet. They have been weaned over the past 2 weeks and some on the day of assessment. Most weaners that have been in hand for a few days have quietened down very well. They have not been educated outside of the yard. |
