|---|---|
| Assessor Comments | 53 Quality Droughtmaster cross steers that are presenting in opportune condition to power away with compensatory weight gains. Ideal temperament with plenty of bone and frame to grow into heavier weights. Steers have been weaned in yards and handled so that all the hard work is taken out and buyer can be confident when going into a fresh paddock. The tail portion has been removed, offering the lead for sale. Approx 3 Steers have slight signs of being later cut (slightly more masculine heads and loose pizzles) These steers have been bred on light red mulga country and will be a powerhouse on weight gain performance for the buyer. Don't miss an opportunity to step into an ideal trade article. |
