The majority of the steers worked well through the pound, crush and yards; some taking offence being put back through the crush a second time. At no time did they challenge, but did have some run in them if given space; but could be blocked.

| Assessor Comments | Two decks of perfect, soft Trade weight steers to finish on the grain or crop or take on and grow out for export markets. These calves were all sired by Top quality Angus bulls so should achieve very good MSA results with the finished product. There is also some straight Angus/Angus steers in the mob! Now is the time to purchase these steers and finish fattening as they have been on good feed and converting well. *Please also note there is a couple with clouding in the eye/old scaring but not detrimental. *There is also 2 other lots of feeder steer brothers in the same sale. |
