Assessor Comments	A small run of one brand Angus and Angus cross heifers. They are good to very good quality, well handled, soft heifers that have the weight and maturity to join to the bull of your choice. Alternatively they are feedlot entry weight and would suit a domestic feeder job. These heifers present in store condition as a result of very wet conditions in heavy black soil for an extended period of time which has affected animal performance. On good feed and dry conditions it is expected they would bound ahead. Please note one heifer is cloudy eyed in both eyes but does not seem to affect vision and one heifer has a blue spot on one of her eyes.
