| Vendor Comments | These Steers would grow into a nice run of Bullocks, plenty of bone and shape with them. Really starting to see them clean up in last couple of weeks |

| | Cattle had just been drafted into 2 mobs/ Steers/ Heifers prior to assessments taking place. Both lots drafted and separated well from each other and walked from pound to crush all okay. Couple of steers stirred a little with the noise of the steel panels and gates but quickly settled down once with others in the mob. |

| Assessor Comments | A nice even draft of steers that would grow well to make young bullocks, they have plenty of frame and length and starting to clean up in their coats. As you will see by photo's there are a couple of steers with young horn and a couple with white face. You will see there is a different ear mark on a couple of steers which are a family member. These steers were only weaned a few weeks back and are going ahead well, fresh feed in front of them these cattle are now ready to show their potential. A nice draft of red coat steers |
