Vendor Comments	Hereford heifers bred for performance, sired by Winter Grazing Co stud bulls with solid EBV's in the top 35% for the northern self-replacing index with good commercial traits such as carcase weight and eye muscle area. Dams are Hereford cows					
Joining Details	Not Station Mated					
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.					
	Frame		Quality Grades		Store Condition	
	Medium	90%	Very Good	75%	Store	100%
	Small	10%	Good	25%		
Temperament	Yards		Crush		Paddock	
	Quiet: 11 head		Quiet: 10 head		Temperament not assessed in	
	Slightly Stirry: 2 head		Slightly Stirry: 3 head		Paddock	
	Heifers were good to handle in yards and crush, a few stirred slightly while in race and crush but settled quickly once back in mob					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	A quality line of well bred Hereford heifers with years of breeding using high EBV bulls to meet todays market specs. The herd has been using high ranking EBV bulls since the early 1990's and source the best genetics available to suit there program with Winter Grazing Co stud bulls used that are in the top 35% for the northern self-replacing index with good commercial traits such as carcase weight & eye muscle area. They also have good calving ease & gestation length, making this line of heifers ideal future breeders. Dams are predominately Winter Grazing genetics with a few cows purchased as heifers from an established Condamine Poll Hereford commercial operation. The heifers were born at the Goondiwindi property and weaned in April at Westbank near Westbrook. This line of heifers are bred to be ideal future breeders only selling due to excess of requirement for replacements.
