	While drafting in the yards, the heifers do work quite well although a little bit quick. Most of the heifers did stir in the crush while being assessed but did settle ok when back in the mob.

Assessor Comments	A line of predominantly Angus & Black Limo/Angus x heifers that present in strong store condition. No special treatment has been given to these heifers and offers potential buyers good compensatory weight gains. Ideally suited to any graziers looking for replacement breeders or any operations looking for heifers to background for feedlots. **Please note** 1 heifer did have a weeping eye but was treated while being assessed. 2 heifers had a patch of warts. Vendor has several lots in the sale.
