In the paddock the steers have been taught to come to hay and are settled in their own environment with only a handful of steers standing back when being fed. The majority of steers did stir when confined in the crush but did settle ok when left alone and back in the mob.

Handled With	Bikes
Assessor Comments	A line of predominantly Charolais x steers that present in good strong store conditions and will offer potential buyers good compensatory weight gains. These steers are ideally suited for any graziers looking to background for feedlots or fatten as bullocks. **Please Note** 1 steer was marked late (3 weeks ago) and is still showing swelling in the scrotal area. Vendor has several lots in the sale.
