Very well handled heifers which have seen correct handling and processing since birth. Temperament of the heifers is good. Please note some heifers are restless when in race, though return to settled when in company.

Handled With: Bikes , Dogs , Horses

Assessor Comments: A Commercial line of one brand, vendor bred, ready to join Angus heifers, a 20% tail has been removed from the annual draft to present these growthy, feminine future breeders. The vendor has a strict selection process when choosing sires and retaining females. Selecting sires with correct IMF traits has been a must, to ensure marbling in future offspring. Please note some heifers show slight navel, appears to be genetic throw back from stud angus bulls used in the past on the maternal side. 15 heifers have white udders with some very slight white line forward of the udder. Heifers are cleaning up in the coat with the warmer weather with some very minimal signs of old rub . Note heifers where assessed in two different Yards on the one property
