| Comment on Fat Score 1 Cattle | There's a handful of calves that are plainer in condition, I'd say this is due to their mothers weaning them in early.                 |  |  |

| Assessor Comments        | A line of 86 lightweight crossbred weaner calves sold as a run out the gate of 130. This give buyers the opportunity to purchase 1-2 or 3 decks. They are soft fresh types and have done remarkably well throughout a cold wet winter and are moving forward with the season. Please note read the assessment details in relation to a few unmarked males, they have been left this way knowing that the yards will be muddy so to not harm them health wise.                                                                                                                                                                   |                             |       |                 |                |                 |                             |                |                |         |                          |                          |     |                |                |   |      |  |  |      |     |  |  |  |  |  |  |       |    |  |  |  |  |
