Handled With	With the handling practices this vendor uses from an early age these Steers are very quiet, we had no problems with them during the assessment process, quietly walked into weigh box and walked away to their mates. No Issues noticed here. Horses , On foot , Vehicles					
Assessor Comments	A nice line of clean coated steers that are healthy and, on the move, properly weaned through the yards and a pleasure to handle. As a group of Steers these would suit to grow out on crop or take on to heavy weight feeders. These cattle have a good reputation on the feed bin. Bred from quality and selected bloodlines with great temperament. These Steers are in a Tick Free area so no movement restrictions. Quiet Steers, frame and bone.
