Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.			
Assessor Comments	The McEwen Family take pride in their breeding, and, in the lambs, they produce on offer for you. They have been using the Chrome Genetics for 10 years now, and they're extremely happy with the ewes they have bred over the 10 years. The McEwen family are particularly impressed with the high lambing percentage and high weaning weights while being easy lambers and only require a low level of husbandry throughout the year. A great chance to get yourself some great mothers for years to come. Since weaning, they have been on improved pastures of clovers and grasses and have done extremely well. Don't miss this chance to get your hands on a run of very good Ewe lambs with genetics to back them up
