Assessor Comments	*Quality Primeline Ewe Lambs - No Ewe lambs retained! 420 in the draft* A great opportunity to secure a draft of 210 x Primeline Ewe lambs of the 2026 drop, no ewe lambs retained! These lambs are June/July and bred out of a highly fertile flock that consistently marks at 160-170% Lambs. Replacement Ewe lambs have always been selected from twinning ewe lambs (Notch on the end of left ear).They present in forward store condition, weighing 36kg - 43kg to ave 39.6kg. The skins are starting to dry off with the season but are still in healthy condition. Been using Lambpro rams for the past 14 years. These Lambs have been in and out of the yard this week for crutching & drafting the wether lambs off so i would suggest these are going to look the goods with a week of feed. 420 x lambs assessed as one group, being offered as 2 lines of 210 as a run out the gate. *Only being offered due to the flock size and a slight change in direction*
