Assessor Comments	An excellent opportunity to acquire classed in breeders from a well-established flock. The Smith family have bred self-replacing merino ewes for the last 38 years, with selected Bundilla sires since 2015 and Egelabra prior. The three age groups listed have all been classed in by Austin Grace with the flock being classed by Paul Kelly for many years prior. Rams are selected annually with an emphasis on a balance in figures, contributing to the evenness in the ewes. This line of ewes represents 340 of the 540 white tag ewes listed, delivered as run out the gate. Shorn on the 10th August, they are medium to large frame ewes and the sample averaged of 50.3kg liveweight at assessment. As the bale and test results are not yet available, the wether portion of this group shorn in June tested at 17.2 micron as lambs. The ewes are on a rising plane of nutrition since shearing and will slot into most joinings going forward.
